The MathWorks

September 2006

Dear MathWorks customer,

Enclosed are your Release 2006b product CDs and Software License Agreement booklet. Because you are subscribed to the MathWorks Software Maintenance Service, you can now install the R2006b versions of products you are licensed to use.

To ensure proper functionality, please install this new version of MATLAB® and all your licensed products in a new installation directory. Please refer to the installation guide on CD 1 for more detailed instructions and information.

If you have not received your Personal License Password or License File, please visit "My Licenses" at **www.mathworks.com/accesslogin/myLicenses.do** to access them. The site also provides more information on installation and licensing

R2006b includes updates to MATLAB and Simulink®, plus six new products released since R2006a, and updates and bug fixes to 80 other products. Additional release information is available on the MathWorks Web site at **www.mathworks.com/r2006b**.

Thank you for your continued support of MathWorks products.

Regards,

The MathWorks Customer Service Team

The MathWorks

March 2006

Dear MathWorks customer,

Enclosed are your Release 2006a product CDs and Software License Agreement booklet. You are receiving these CDs because you are enrolled in the MathWorks Software Maintenance Service.

To ensure proper functionality, please install this new version of MATLAB® and all your licensed products in a new installation directory. Please refer to the installation guide on CD 1 for more detailed instructions and information.

You should have already received your Personal License Password (PLP) or License File. Visit **www.mathworks.com/support/install** if you need to retrieve either your PLP or License File, or would like more information on installation and licensing.

R2006a includes updates to MATLAB and Simulink, plus one new product, major updates to 10 products, and minor updates and bug fixes to 62 products. R2006a introduces MATLAB for Windows x64 and provides new features for distributed computing, MATLAB application deployment to .NET, Simulink model viewing and sharing, and embedded software design and implementation.

Visit **www.mathworks.com/r2006a** for more information.

Thank you for your continued support of MathWorks products.

Regards,

The MathWorks Customer Service Team
